Cultural area and aims

Politics is the science that deals with the 'Polis'. In its widest sense it deals in rules and dynamics that our associated living, in communities that have variable dimensions, from the town to Europe, from micro-groups to the global village of the information network.

Historical, social, political, economic and judicial themes all play an important role. The Faculty aims to present each of these areas in its own specificity yet at the same time to present their mutual relationships.

The graduate in Political Sciences is above all a person who is able to think in complex terms. He/she is able to apply different methods of analysis according to the problems and variables that may emerge.
